How to Verify Vaccination Status

Attendance in person at the Disability Policy Seminar is limited to people who have been fully vaccinated (as defined by the CDC). In-person attendees will be asked to provide proof of vaccination via **Cvent Health Check** (powered by ID.me), which is a secure system that verifies your identity and then validates your vaccination status in less than 10 minutes. We recommend verifying your vaccination status a few days before the event to prevent delays onsite.

Please note: ID.me handles the verification of your vaccination status and does not share any health information with Cvent.

Before verifying using proof of vaccination, you must:

1. Be fully vaccinated with the following FDA authorized vaccines:
   - Pfizer (fourteen days after the second dose),
   - Moderna (fourteen days after the second dose), OR
   - Johnson & Johnson (fourteen days after the first and only dose),

   AND

2. Have access to an [acceptable, legible proof of vaccination](#).

Follow the steps listed below or watch a [three-minute video](#) on how to verify your vaccination status using Cvent Health Check.

Step 1: Identity Verification

- [Access the health check portal](#)
- Create an account with ID.me if you do not have an existing account
    - o **Note:** Multiple or duplicate accounts cannot be created for one individual as ID.me's technology is designed to protect against fraudulent transactions and/or bad actors. ID.me will identify duplicate entries of information and reject the verification attempt.
- Select one of the following verification methods:
    - o Phone number
    - o Driver license
    - o State ID
    - o Passport
    - o Passport card
- Follow the prompts and complete the verification process

Step 2: Uploading Proof of Vaccination

- After successfully verifying your identity, you will need to verify your vaccination status
- Select **upload proof** and enter the type of FDA approved vaccination received and the date of your dose(s).
- Select one of the following [acceptable proofs of vaccination](#).
    - o CDC COVID-19 vaccination record card,
    - o State immunization registry record, or
    - o Health provider vaccination record (e.g., MyChart).
- Upload proof of vaccination as a photo or PDF file.
    - o You can also scan a SMART® Health Card that proves vaccination status
    - o If you are verifying with your CDC COVID-19 vaccination record card, make sure to upload photos of both the front and back
- Vaccine cards will be reviewed by trained ID.me document reviewers.

- You will receive an email when your vaccination status has been verified.
- You can now access your COVID-19 status verification by signing into your ID.me account and accessing your wallet.
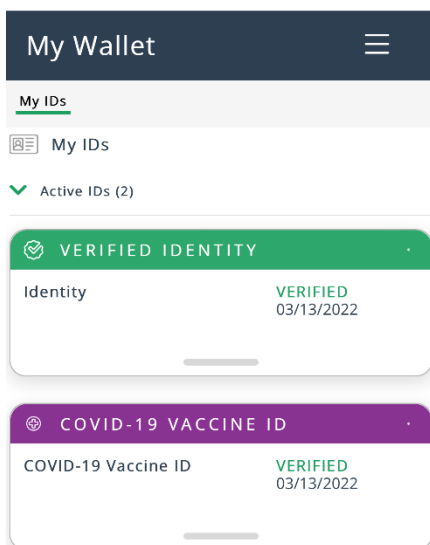

Step 3: Accessing COVID-19 Status Verification

- Sign in to your ID.me account and access your Vaccine ID
- Select **COVID-19 Vaccine ID** under "**Active IDs**." to expand for more details

3

Step 4: Providing Proof of Vaccination Onsite

- Event staff will be placed at the entrance of the event, and will do a quick visual verification of each attendee's ID.me health pass prior to event entry
- [Sign in](#) to your ID.me account and access your Vaccine ID
- In your wallet, select **COVID-19 Vaccine ID** under "**Active IDs**"

We recommend verifying your vaccination status a few days before the event to prevent delays onsite. Attendees that need help completing their verification onsite, visit the Disability Policy Seminar [Health Check portal](#) and tap the "**Need help verifying?**" link at the bottom of the verification popup. These requests will get sent to a priority queue for help. You can visit the [ID.me Covid-19 FAQs page](#) for more information.
